Dear Sir:

In response to your letter of April 6th, we can send you a copy of United States Pattern and Experimental Pieces, cloth bound copy, for Three Dollars.

In answer to your question as to the distinction between the American Numismatic Association and our American Numismatic Society, I enclose a folder briefly describing the aims of our organization. The Association is little more than a list of the subscribers to the Numismatist; the membership is distributed throughout the country, and there is an annual Convention, usually held in the East.

Associate membership in our Society is but Five Dollars annually, and this entitles the member to our publications, a list of which I enclose of those issued in 1921. I am also enclosing an application card, in the event that you would care to consider the invitation to associate yourself with our Society.

Very truly yours,

Secretary
